CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in International Equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses' welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health, before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the Event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper Veterinary care, competition injuries, euthanasia, and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

FEI CSI-W Competitors - REMINDER

Ensure you have the FEI Horse App, comply with the FEI horse health requirements. Don't forget to load your temperatures 2 x a day.

Horses and Riders to be registered with the FEI for 2026 – contact Robyn at SAEF for any queries regarding FEI registrations or FEI passports. Fei.admin@saef.org.za (011 468 3236)

Anyone competing in FEI competitions must use the FEI HorseApp to upload documents, record horse temperatures and certify the health status of their horse(s). All athletes, grooms, vets, officials, organising committees, endurance trainers and owners need to be aware of the horse health requirements and use the FEI HorseApp to fulfil these requirements in accordance with the FEI 2025 Veterinary Regulations for all FEI events both in the UK and worldwide. Violations and sanctions are in place for failure to submit the correct data on time, which are connected to the horse profile and not the athlete. This is important to note in the event of a horse being ridden by multiple riders. All sanctions will be sent to the Person Responsible, so it is vital that they submit all the required data. There are different views and different types of data to be captured within the app depending on who you are. In accordance with the FEI Veterinary Regulations 2026, a number of horse health requirements have been put in place to protect FEI horses and global equestrian sports from the consequences of infectious diseases being transmitted before, during and after FEI events. This provides reassurance of the high health of sporthorses to global, continental and national veterinary authorities and organisations, and will maintain and further improve the conditions for international movement of sporthorses.

The FEI HorseApp now records all equine influenza vaccination details.

More information can be found on the FEI website: [FEI horse health requirements](#)

PASSPORTS: All horses must have their FEI Passports or SAEF Group IX Passports at all shows. Inspections, sampling, and random passport checks may take place at any event.

SAMPLING (SAEF & FEI VETERINARY REGULATIONS):

'EQUINE TESTING

All horses or ponies competing at SASJ and/or FEI Events may be subject to sampling for the presence of Prohibited Substances in accordance with the Anti-Doping and Controlled Medication Regulations (EADCMRs). Horses or ponies may be selected for sampling in accordance with the obligatory testing, targeted or random sampling procedures.

MCP testing as per SAEF Regulations will be done by the appointed Testing Vet.

Laboratory: National Horse Racing Authority, Turffontein Racecourse, Turf Club Street.

FEI testing will be as per FEI regulations by an appointed FEI Testing vet and sent to the FEI Appointed Laboratory.

You may not exceed 365 days in a normal year or 366 days in a leap year.** However, if a calendar year is exceeded between annual vaccination, the Primary Course will have to be repeated. **No vaccination may be administered in the 7 days preceding any event that the horse may be entered into, or attend a measuring session..**

All horses born prior to 1st January 2020, must demonstrate a minimum of 6 annual vaccinations, with an interval not exceeding 1 year between vaccinations, and administered by a registered veterinarian to avoid having to complete the Primary Course. If a year was exceeded between 2019 and 2020, a Primary vaccination is required.

*****VERY IMPORTANT MESSAGE TO FEI RIDERS - FEI HORSES ARE NOT EXEMPTED *****

Please note: Horses registered with the FEI and competing in FEI events are not exempt from vaccination under this dispensation. **All FEI registered horses MUST be vaccinated by a REGISTERED veterinarian with Equine Influenza vaccine within 6 months and 21 days of competition.**

All horses must have had a PRIMARY Course of Equine Influenza (Only Exception are horses that have been vaccinated every year without a primary course since 2005)

VACCINE 1 (V1) First Vaccine of the Primary Course. Horse is Not eligible to compete.

VACCINE 2 (V2) First Booster. Administered between 21 – 60 days after V1.
(prior to January 2024 = 21 – 92 days)

Horse will be eligible to compete after 7 days.

VACCINE 3 (V3) Second Booster of the PRIMARY Course administered WITHIN 6 months after V2.

(Prior to January 2024 within 7 months of V2) these horses vaccinated prior to January 1

2024, according to the protocol in place at the time, are no required to redo their primary Vaccinations)

NB: NO HORSE MAY COMPETE FOR 7 DAYS FOLLOWING ANY VACCINATION

All horses must have their Equine Influenza Primary Course Vaccinations recorded in their latest FEI Group IX Passport by 30th April 2024. If a horses passport is found upon inspection, to not have the Equine Influenza Primary Course Vaccination recorded, the horse will not be eligible to compete in a competition. Please note below the wording to be used by the veterinarian, for the vaccination history to be transferred to the latest FEI Group IX Passport:

The vaccination history and primary course of this horse is correct to date in accordance with the FEI Veterinary Regulations. Last Vaccination on 00/00/00 date > Must be signed, stamped and dated by the veterinarian.

The last vaccination in the previous passport must be transcribed into the new passport by the veterinarian

AFRICAN HORSE SICKNESS (AHS)

African Horse Sickness is a controlled disease in South Africa, and as such the State Veterinary Department must be notified of any positive cases. According to the Government "Animal Diseases Act 35 of 1984" all Equidae must be vaccinated against AHS annually, (except in the controlled AHS Zones of the Western Cape)

The only vaccine currently registered in terms of Fertilizers, Farm Feeds, Agricultural Remedies and Stock Remedies Act 1947 (Act no 36 of 47) for AHS and therefore the only efficient/effective remedy “as described above is the live virus vaccine produced by Onderstepoort Biological Products (OBP).

For Competition purposes the following apply:

- i) As per the directive issued on the 8th August 2024, for competition purposes in the AHS infected zone, horses must have received at least ONE AHS Bottle 1 and one AHS bottle 2 vaccine between 1 June 2022 and 1 December 2025
- ii) From 1 December 2025 for competition purposes in the AHS infected zone, horses must have received at least one AHS 1 and one AHS 2 vaccine in a calendar year. (i.e. between 1 January and 31st December each year)
- iii) Horses residing in the AHS Controlled area within the AHS free and surveillance zones of the Cape do not require AHS vaccination in order to compete. However, should these horses leave the AHS controlled area, they will require vaccination against AHS as described in i) and ii) above.
For movement into the AHS controlled area of the Western Cape, a horse must have received its AHS vaccinations within 24 months of entry. Any changes to this requirement will be communicated by DALRRD and is outside the administrative control of SAEF.
- iv) Horse residing within the AHS protection zone require AHS vaccination in order to compete both within the AHS controlled area and, within the AHS infected zone as described in i) and ii).
- v) The only accepted registered vaccine for competition purposes is the Onderstepoort Biological Products vaccine, as it is currently the only registered vaccine against AHS in terms of the “Farm Feeds, Agricultural Remedies and Stock Remedies Act 1947 (Act 36 of 47)
- vi) AHS vaccines must be supplied and administered by a registered veterinarian, who is required to sign and stamp the passport as part of the vaccination certification.
- vii) The current AHS vaccine is an attenuated live vaccine supplied in 2 bottles AHS1 and AHS2. The two vaccine bottles must be administered at least 3 (three) weeks apart. If vaccines are given less than 3 weeks apart, both vaccines are invalidated, making the horse ineligible to compete and compromising its welfare.
Research has shown that leaving a longer interval between vaccines is better for producing greater immunity.
- viii) In the AHS infected zone, it is strongly recommended that horses are not vaccinated during periods of high midge prevalence due to the risk of vaccine virus transmission by the midge vector.
- ix) **AHS vaccination is only allowed in the AHS controlled area between 1st June and 31st October each year due to the transmission risk. Owners wishing to have their horses vaccinated against African Horse Sickness in the Free and Surveillance zones of Western Cape for competition purposes outside the 2 zones, must contact the state vet in the Western Cape for permission to vaccinate.**
As per 24th June 2025 SAEF AHS Directive: Check SAEF for any updates as they are closely monitoring the situation.
